## BUTLER'S PANTRIES

# Planning Your **KITCHEN**

## CONSIDER YOUR LAYOUT

Your kitchen will be highly personal as you piece together everything we have to create your own look. The first step though is confirming your layout and understanding which works best for your home. We've illustrated the most common styles for you found within the UK, but if you're lucky enough to have a completely blank canvas then enjoy creating your own!

### LINEAR

Used for compact kitchens, combine with clever storage solutions to maximise the space.

### L-SHAPE

The most common kitchen layout, leaving space to move around and possibly enough space for a dining table.

### GALLEY

Works best for long narrow kitchens with everything within easy reach.

### U-SHAPE

Great for lots of storage space, use pull out corner units for easy access to all your pots and pans.

### ISLAND

This desirable layout works well with large open plan kitchens, creating a flexible and social working space.

## Room Considerations:

### ROOM DIMENSIONS

- Walls, inc. exterior ones
- Height of room
- Boiler & radiators
- Windows & doors, inc. frame and which way they open

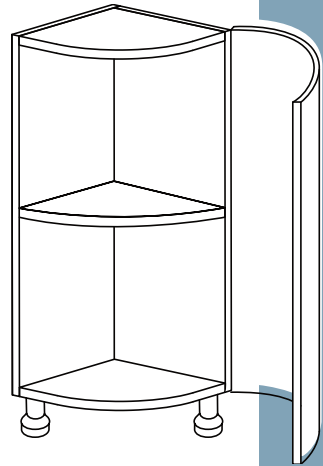

### THE DETAILS

- Location of sockets
- Waste pipes
- Air Vents
- Gas pipes

### APPLIANCES

- Integrated/ free standing
- Any existing appliances

# DESIGN IDEAS

## Consider curves to create a bespoke look.

Curved kitchen design adds a different aesthetic to more traditional straight lines. Tall external curves create a feature area and can now be created in many ranges.

- Available as:
- Base units
  - Wall units
  - Tall units

## Take full advantage of full height larder doors.

Enhance a minimalist design with the inclusion of full height larder doors. Equally as impressive in either a straight run of larders or in framing ornate design.

- Available in:
- Lucente
  - Vivo+
  - Linear
  - Stratto

*Shhh...*

All of our doors and drawers come with soft close as standard

## Understanding drawers.

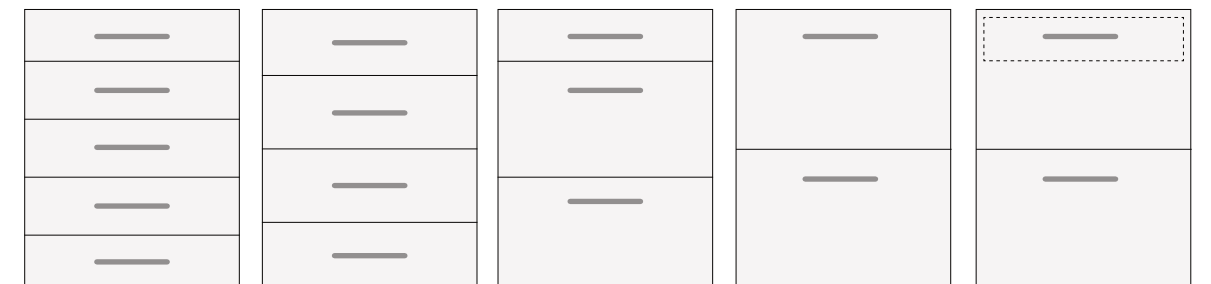

Drawers are an increasingly important part of the kitchen offering style and easy access. Jigsaw provides a multitude of sizes and configurations which are easily explained below:

### DRAWER CONFIGURATIONS

What drawer combination you choose might depend on how much space you've got available, what design you're after, or what you want to store in them. For example...

- Cutlery
- Utensils
- Cookware
- Plates and bowls
- Food
- Kitchen towels
- Cleaning products

### POPULAR DRAWER CONFIGURATIONS:

5 shallow drawers

4 shallow drawers

1 shallow + 2 deep drawers

2 deep drawers

1 internal & 2 deep drawers

### INTERNAL DRAWERS

Internal drawers are a great way of achieving a clean and linear look while still providing practical storage and easy access to your cutlery and utensils. The top drawer simply hides inside the deep drawer front, creating an uninterrupted and streamlined kitchen design.

## What makes our cabinets extra special?

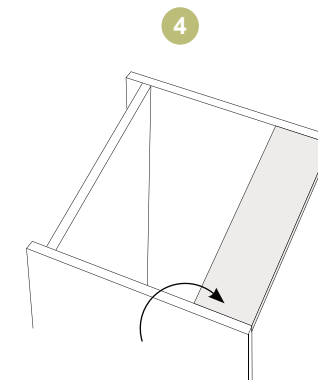

1  
18mm back panel for added rigidity on base units means you don't need to worry about your cookware damaging the backs!

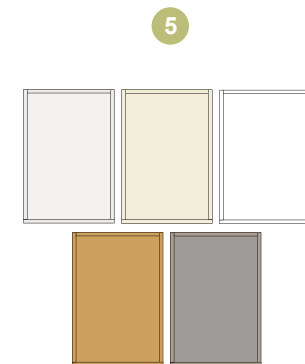

2  
2mm PVC on leading edges prevents moisture from getting into the cabinet structure and causing damage.

3  
Be assured of lasting quality with our 18mm thick cabinets as standard.

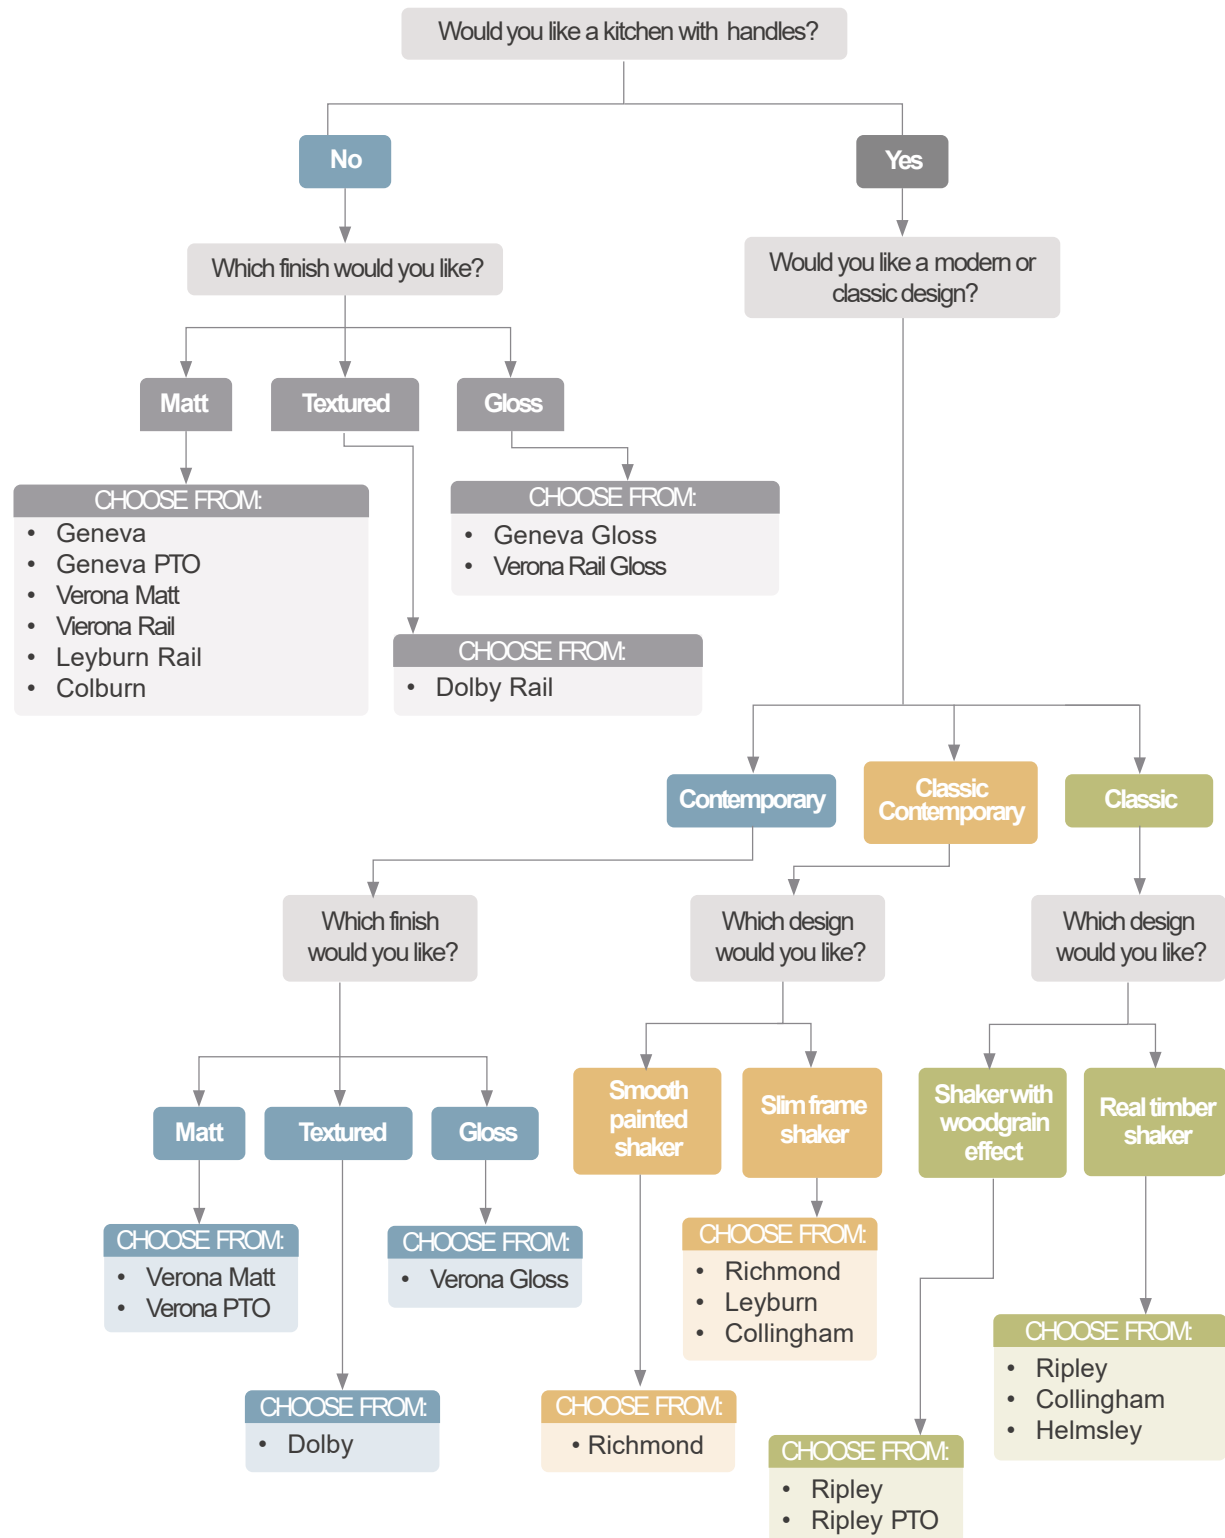

4  
Unlike some other cabinets, our cabinets come with a 100mm cross rail to add further stability.

5  
We have 5 colours to choose from to complement our vast array of doors.

## Gloss Handleless

If you want a minimalist, contemporary kitchen with multiple colour choices, then you've found it. The Lucenterange offers a true 'J' pull handleless door design that results in beautiful clean lines throughout the kitchen. The painted gloss finish, available in 6 colour options provides a consistent sheen and allows door colours to be mixed. Handleless design has been the biggest growing kitchen trend in recent years and we've got it covered!

Looks perfect with  
curved cabinets...

AVAILABLE COLOURS:

# Geneva Gloss Anthracite

For a strong, bold and striking kitchen, Geneva Gloss Anthracite is an obvious candidate. Minimalist lines across larger banks creates a particularly streamlined look.

Handleless high gloss

## Geneva Gloss Light Grey

The cutting edge door in the highly fashionable tone of light grey makes a kitchen to be proud of. Incorporate simple shelving to create a feature area.

## Geneva Gloss Cream

For a minimalist feel with longevity, look no further than gloss cream. Soften your lines with curved units and use your walls to introduce a feature colour.

### MATRIX BOWL & HALF UNDERMOUNT SINK

The Matrix sink uses the very latest technology to create very precise shapes with almost square radiuses.

Handleless high gloss

## Geneva Gloss Cashmere

Use curves for a natural sweeping flow to the kitchen. Cashmere is a warmer alternative to white and cream and grows in popularity on an annual basis.

## Geneva Gloss White & Dust Grey

Both white and dust grey are highly flexible tones, mixing seamlessly together or equally as adept when used individually, designer accessories create flowing lines in a minimalist fashion.

Handleless high gloss

# Geneva

## Matt Handleless

The handleless matt design will add depth and decadence to any kitchen design. Bring the wow factor to your kitchen with these elegant finishes. Enhanced by its sleek handleless appearance, matt is perfect for any new kitchen design. Choosing this option offers you a high class, superior and sophisticated look that will take you and your guests breath away.

Handleless Matt

## Geneva Matt Cashmere

The growing popularity of cashmere makes a stunning impact in a matt handleless kitchen. Bi-fold wall units add to the contemporary feeling, providing design lead functionality.

Handleless Matt

## Geneva Matt Anthracite

The darker tone of anthracite adds definition to the kitchen with a range of curve sizes adding to the contemporary design.

## Geneva Matt Indigo

Blues are in and indigo takes first place. If you are looking for a supermodern option that is the height of fashion then indigo could be the choice for you. Combine indigo with white worktops and a Matrix undermount sink to complete the contemporary look.

Handleless Matt

## Geneva Matt Fir Green

Fir green's rich tone creates a kitchen with impact that's equally as comfortable with light and dark room colours. Use glazed walls with integrated lighting for additional ambience.

## Geneva Matt Dust Grey

Combine the tactile trend of a matt finish with the emerging tone of dust grey to create a kitchen very much of the moment. The simplicity of symmetrically designed larders gives an extra added wow factor to this already stunning kitchen.

Handleless Matt

## Geneva Matt Light Grey

Light grey is a cool contemporary colour favourite, darker worktops contrast here beautifully for a kitchen with serious impact. Flexible strip lights (pictured left) under cabinets provide ambience and illuminate your worktop for tasks when required.

# GENEVA MATT PAINT TO ORDER

## Leyburn Indigo

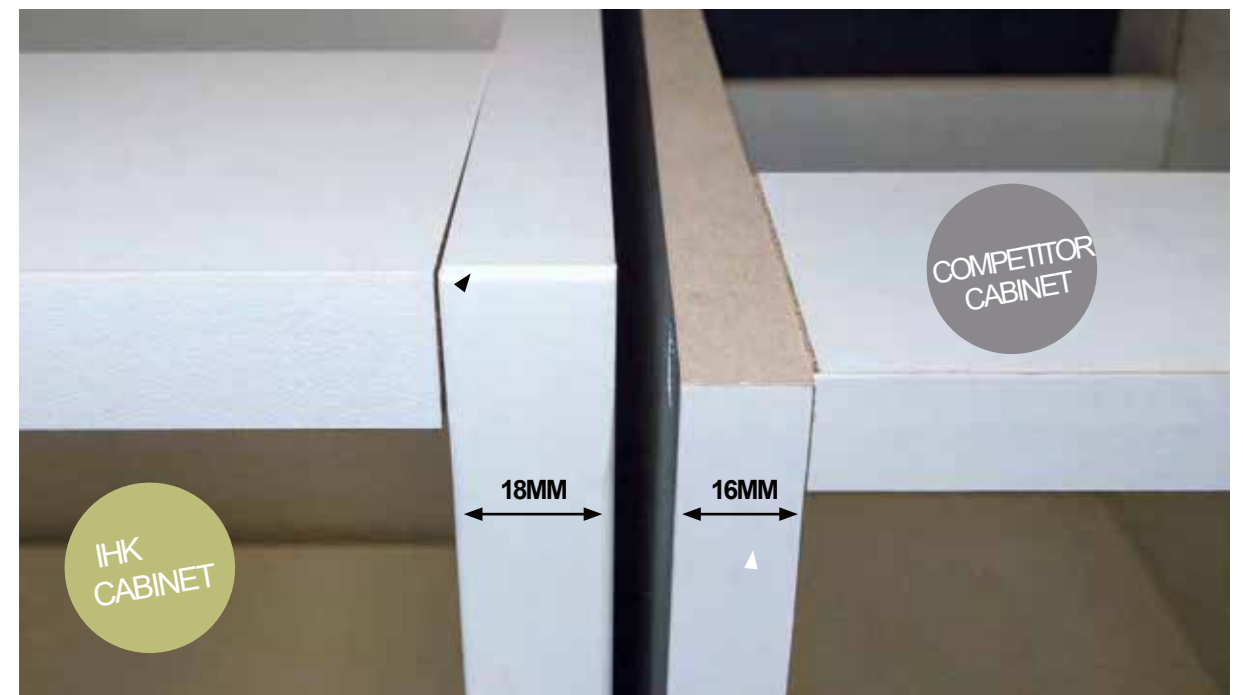

Go bold for a kitchen with undeniable character. A square handle choice accentuates the straight lines of the shaker design.

# QUALITY CABINETS

A cabinet is the foundation of your kitchen, so make sure yours is a solid one that's engineered to last. Don't accept flimsy panels when you have your best crockery in them, or bare surfaces that could come into contact with water.

- ✓ A solid 18mm back panel on base units means you don't need to worry about damaging the backs from pots and pans
- ✓ 2mm PVC leading edging is extra protection against moisture damage
- ✓ The 18mm thickness assures lasting quality

# LIGHTING

Lighting in the kitchen is essential from both a task and ambience perspective. Food preparation typically takes place under wall cabinets where further illumination is often desirable.

## Soldan Flexible LED strip lighting

Flexible strip lighting can be cut to size and is commonly used underneath wall cabinets and worktops, or on plinths to create additional ambience.

## Steina Kea LED

The triangular styling of Kea is a timeless favourite in the UK. Use these underneath wall cabinets to provide additional task lighting.

## Steina Downlight LED

The contemporary circular design of the Steina Downlight can be used under wall cabinets or within them to create a display unit.

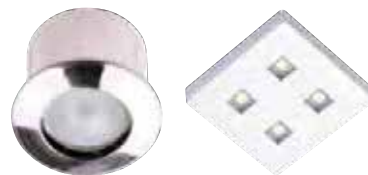

## Steina Faro LED

Steina Faro lights are typically positioned subtly underneath wall cabinets. Their unobtrusive design is a natural choice in a contemporary kitchen.

## Steina LED Tube

Tube lighting maximises impact and is easily positioned under wall cabinets. Use a continuous line or around specific areas.

## Picka Plinth Lights LED

*Available in round or square designs.*

Add plinth lights to the base of your kitchen units to add subtle ambience to the room. Illuminate your kitchen at night solely with plinth lights to create a 'show house' effect. Choose from square and round designs.

### CLEANING

We recommend the following door cleaning instructions for all of our doors:

- > Clean the doors using only a solution of 95% lukewarm water with no more than 5% soap
- > DO NOT spray anything on to your doors - this includes the solution recommended above
- > Use a clean damp (not wet) cloth
- > Dry with a soft clean cloth. If it is a timber door, run the cloth along the grain direction
- > Any cooking marks must be wiped immediately
- > Do not allow liquids to seep into joints of doors. Wipe any spillages immediately.

DO NOT use any of the products listed below to clean the door as they may mark and damage the surface:

- > Wax furniture polish
- > Bleach / chlorine based cleaning products
- > Abrasive cleaners
- > Solvents
- > Multi-purpose cleaners
- > Alcohol based cleaners
- > Ammonia or any other similar product
- > Scouring pads or abrasive cloths

### ENVIRONMENTAL INFORMATION

Please be aware, localised or intense heat/steam can damage fascias. Subsequently the use of small appliances such as kettles, toasters etc. in close proximity to your kitchen fascias should be avoided. Doors should not be exposed to extreme temperature changes. Due to their manufacturing process, vinyl doors must not be exposed to temperatures above 70°C as this may cause damage to the door's surface.

Due to the limitations on photographic reproduction, colours may differ slightly from the actual products shown.
